## Night vision

I am back at my old church walking throughout the different rooms of the building. There are a lot of people everywhere but every room is empty. I see people everywhere but they are packing everything to move out. Immediately, the scene transitions and I bump into Pastor Jim as I walk by his house; I am walking through his house and looking; It's empty. I then ask: What are you doing? He responds; I am moving out. I respond; where are you going and he says "I don't know."

The scene again transitions and I walk pass Bonita and ask her: where is Pastor Joseph, she said he's gone, he wanted to be out of here and I perceived Church was now to be done from home. I understood they had to move out of the building for Church to be done in the homes.
