I saw a picture of the Constitution come before me. It had some lines missing. I was looking at the first paragraph of words and I'm not exactly sure but I think it started off like "We the People" then the paragraph disappeared. The words moved off of the page. The paper was still there but the words were gone: disappeared

There is death coming to this Nation, those who prophesy otherwise, it's a lie I have not sent them says the LORD. The slain shall line the streets and it shall be a grievous stench to your nostrils then you shall know what kind of odor has risen up to me says the LORD. Vengeance is in My heart and the year of My redeemed is at hand.

See How I smite with the elements as I move across this Nation in my anger and my righteous indignation. Who controls the weather? Who says to the south wind move forward? Do you know who says to the east wind move aside? I the LORD do these things. Shall I not blow across this land in my anger and smite the crops says the LORD.
