and "Prepare for Impact"**

January 28 2021

Word of Knowledge

I am seeing faces. These are the ones creating the agenda for the masses of the people.

October 27th

There will be hidden agendas taking place secretly. All is not as it seems but danger and catastrophes are close at hand

January 14th

Hidden Agendas brought out into the open

I am seeing a flickering of lights. It's like the lights are shuttering on and off very rapidly. Not sure if this flickering of light is light inside or outside light. I saw this three times. Then I notice something but I don't know what to call it. I never seen anything like it up close.

Its like a small planet off in the distance descending to the earth. Its round; it very sizable and hits with such an impact it creates a crater in the ground and the dirt and debri shoots up all around the area of impact. Again shuttering of the lights and then something falling to the ground. An impact.

September 10th

Prepare for impact. As the Challenger went up in smoke so they cried Houston we have a problem and these people will also cry America we have a problem.

September the 12th

“No more time” “Brace for impact” Let me
repeat “No more time; brace for impact”
