

Prophetic Word July 19 2021

Intense Heat and Parched Grain

The LORD says your iniquities testify against you. Mourn and lament for the cisterns have no water. Let the plowman and the tiller cover their heads and the common man be ashamed. For I have bid the clouds to drop no rain on your land that your sins and iniquities may testify against you O Nation of Babylon. When you fast I will not hear your cry and when you offer prayers I will not accept them says the LORD.

For thus says the LORD unto these people. I remember your iniquities and will not hear your cry; for sword, famine and pestilence shall be your portion. The Prophets prophesy a King to deliver but they prophesy from the deceit in their heart of false visions and what is naught. You shall look for peace and find disaster and pray for healing and find terror. You shall ask for strength but be weakened in the way and your days shall be shortened says the LORD.

On June 29th of last year God spoke saying Drought Famine and Pestilence will be the theme for 2021 moreover, on May 29th the LORD spoke saying intense heat; saying from the east wind a scorching heat from the West and now behold the Word of the LORD

Again the LORD spoke saying There is an Angel poised to strike the waters; Test the waters; there is no potable water; Calamity, Calamity, Calamity, suddenly, overwhelming says the LORD; Heat intense, Parched grain, Break out of lesions on people.

Words of Wisdom

The LORD says how will you prepare to meet me at my coming?
For what offering can you provide for your soul?
Behold the hour of trial O Nation and people
