

**Prophetic Word - Somberness over the  
Government as the fate of the Country is  
reconciled**

**September 10 2020**

- My son say it again prepare for impact. As the Challenger went up in smoke so they cried Houston we have a problem and these people will also cry America we have a problem.

My son where is your Government?

Do you know why they are leaving?

I am removing them says the LORD. Did I not say  
a house divided cannot stand?

My son look at how the Nations are arrayed for battle.

Look at their faces and see how they set against the Lady of Nations.

Can this people prevail against Me?

Behold I will watch as my mighty army advances quietly.

There will be a somberness over your government as the fate of this Country is reconciled.
